

## **Our Lady of Lourdes School of Nursing General Application and Program Information**

Thank you for your email. Information regarding Our Lady of Lourdes School of Nursing can be found below as well as on our website, [www.lourdesnursingschool.org](http://www.lourdesnursingschool.org).

Applying to the nursing program is a process and requires an applicant is admitted 4-6 months prior to the cohort start date. This is necessary for students to complete mandatory orientations and compliance modules before beginning nursing classes. Students are not able to choose their start date and must meet the requirements to be considered for the nursing program. Once accepted, based upon coursework completed, a student is offered a seat in the first available cohort. The nursing program is currently seating students for the 2026 cohorts, spring, summer, and fall.

Applicants will receive an initial email in 21-30 business days following receipt of their application packet. Completed applications will be presented to the admissions panel for consideration; notifications are made by the panel in 6-8 weeks. During high volume periods and the status of the academic calendar schedule, delays in notifications may be necessary. Applications requiring additional information remain open for six months from receipt of the application. If the documentation is not received during that period, the applicant will need to reapply. Notifications are made to the email address provided on the application. Applications are processed in the order received. Review of an application will be delayed if information is missing from the file.
